11. Can I get a refill? When?
12. Are there special instructions about how to use the medicine?

General Information About Using Medicines

...BEFORE YOU USE ANY NEW MEDICINE

Before you use any new medicine, you should tell your doctor, pharmacist, or nurse if you:

- are pregnant or plan to become pregnant
- are breast-feeding
- have any allergies
- are taking any other medicines, including over-the-counter medicines such as aspirin, cold medicines, if you are taking any vitamins, minerals, nutritional supplements, herbals, or alternative drugs
- have any other medical problem.

Take your medicines exactly as you are told by your doctor, pharmacist, or nurse. It is also a good idea to carry with you a list of all the medications that you take, along with their directions. (For a Personal Medication Organizer Form visit: www.usp.org/pdf/patientSafety/personalMedOrg.pdf)

Do not share your medicines with anyone, even if they have the same symptoms or condition that you have. It may hurt them.

Do not leave your medicines where children or pets can get them.

Discard unused and expired medicines. Know what to do if you think you have taken an overdose or if a child has taken a medicine by accident. Keep the telephone numbers of your doctor, pharmacist, nurse or poison control center (1-800-222-1222) handy so you can call them at once if needed.
