Name _____   Date _____

Model the given equations on number line diagrams. Then describe a real-world situation that corresponds to the equation and number line representations.

Equation	Number Line	Real-World situation
-32 ÷ 4 = -8		
(-4) ● (- 6) = 24		
(-6) ● 9 = -54		

Name _____   Date _____

7 ● (-3) =		
-36 ÷ 3 =		
-50 ÷ 5 =
