About Learning Sets

Learning Sets consist of an ordered sequence of resources bound together by a common purpose.

They are great for lessons or activities the need multiple supporting resources.

Creating a Learning Set

Go to
http://ioer.ilsharedlearning.
org and login. If you do not
have an account, you will
select Register from the
Login screen.

Creating a Learning Set

- After logging in select
Share from the
header.

- From the Share drop
down you will select
Contribute Resources.

Creating a Learning Set

Select Go to Learning Set Builder.

Creating a Learning Set

When beginning to create a learning set, your first screen is where you will add basic information. After you've entered the information select Create!

➢Title
➢Description
➢Learning Set Organization (optional)

Creating a Learning Set

The next step of building your learning set will be to;

➤Add a Rich Description

➤IOER Access Restrictions

➤Select correct Usage Rights

➤Add your Learning Set image

Once these steps are complete you will select Save or Save and Add Resources.

Adding Resources

To add resources to your Learning Set, you will select the Add Resources tab. You will;
1. Choose a file or a Webpage URL
2. Enter in a brief summary of the resource
3. Access rights for the resource
4. Usage Rights
5. Add Learning Standards
6. Save Resource

You can upload multiple types of documents to your learning set. Such as:
➤ PDFs
➤ Word Documents
➤ Excel Documents
➤ Power Points
➤ Webpages

Aligning Resources to Standards

After adding all of your resource details to your uploaded resource, you can align the resource to standards. You will;

1. Select Add Learning Standards..

2. From the drop down choose the standards you want to align the resource to
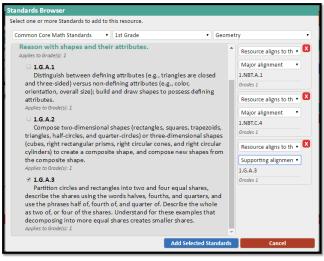

Editing Resource: isbe email.docx

Aligning Resources to Standards

3. After selecting all of the standards you want to align the resource to you can choose if the standard is Major, Supporting, or Additional alignment.

Once you are ready to save your aligned standards you will click on Add Selected Standards.

Standards Browser

Select one or more Standards to add to this resource

Common Core Math Standards ▼   1st Grade ▼   Geometry ▼

Reason with shapes and their attributes.
Applies to Grade(s): 1

☐ **1.G.A.1**
  Distinguish between defining attributes (e.g., triangles are closed and three-sided) versus non-defining attributes (e.g., color, orientation, overall size); build and draw shapes to possess defining attributes.
  Applies to Grade(s): 1

☐ **1.G.A.2**
  Compose two-dimensional shapes (rectangles, squares, trapezoids, triangles, half-circles, and quarter-circles) or three-dimensional shapes (cubes, right rectangular prisms, right circular cones, and right circular cylinders) to create a composite shape, and compose new shapes from the composite shape.
  Applies to Grade(s): 1

☑ **1.G.A.3**
  Partition circles and rectangles into two and four equal shares, describe the shares using the words halves, fourths, and quarters, and use the phrases half of, fourth of, and quarter of. Describe the whole as two of, or four of the shares. Understand for these examples that decomposing into more equal shares creates smaller shares.
  Applies to Grade(s): 1

Preview Learning Set

After adding your resources to your learning set you can Preview the set so you can see how it will look once it is published.

To preview your set select Preview this Set tab at the top of the builder.

| Add Information | Add Resources | Preview this Set | Publish Learning Set | Delete this Learning Set |

Publishing Your Learning Set

After adding all of your resources, aligned them to standards, and previewed your learning set, you are ready to publish your Learning Set!

To publish your Learning Set you will select the Publish Learning Set tab at the top of the screen.
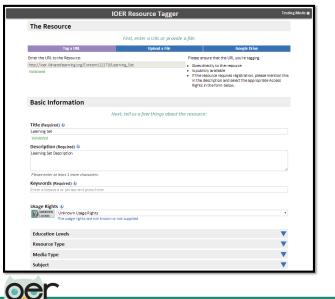

| Add Information | Add Resources | Preview this Set | Publish Learning Set | Delete this Learning Set |

Publishing Your Learning Set

After selecting the Publish this Learning Set tab you will be directed to the IOER Tagging Tool. Here you will add Keywords and any other appropriate tags for your Learning Set. Such as;

➢ Education Levels

➢ Resource & Media Type

➢ End Users

➢ Educational Use

➢ And more!

From the tagger you will also be able add your Learning Set to any libraries that you are a member of.
