

Learning Set Instructions

June 2017

ilsharedlearning.org

About Learning Sets

Learning Sets consist of an ordered sequence of resources bound together by a common purpose.

They are great for lessons or activities the need multiple supporting resources.

LDC  **Grade 10-11 - American Dream**

[Learning Set Menu](#) Grade 10-11 - American Dream

Grade 10-11 - American Dream
For this module, students will read: Excerpts from Letters From An American Farmer by Jean de Crevecoeur, excerpts from the U.S. Constitution and The Declaration of Independence, "I Hear America Singing" by Walt Whitman, and "I, Too, Sing America" by Langston Hughes.

Aligned Standards [Expand Each](#) [Show All](#)

Major	Supporting	Additional
Major Standards		
CCSS.ELA-Literacy.L.9-10.1		CCSS.ELA-Literacy.RL.9-10.6
CCSS.ELA-Literacy.L.9-10.1a		CCSS.ELA-Literacy.RL.9-10.9
CCSS.ELA-Literacy.L.9-10.1b		CCSS.ELA-Literacy.SL.9-10.1
CCSS.ELA-Literacy.L.9-10.2		CCSS.ELA-Literacy.SL.9-10.1a

Creating a Learning Set

Go to <http://ioer.ilsharedlearning.org> and login. If you do not have an account, you will select Register from the Login screen.

A screenshot of the login and registration form on the OER website. The form is set against a light gray background. It contains two input fields: "Name/Email" and "Password". Below these fields are three buttons: "Login", "Login with Google", and "Register". The "Register" button is highlighted with an orange border. Below the "Register" button is a link that says "Forgot Password?".

Creating a Learning Set

- After logging in select Share from the header.
- From the Share drop down you will select Contribute Resources.

Creating a Learning Set

Select Go to Learning Set Builder.

Contribute Open Education Resources!

There are a few ways to add your Resources to the IOER Repository. Take a look:

Tag a Resource

Resources are the bread and butter of IOER. A resource is a webpage from the Internet or a file from your computer (or your Google Drive!) with a complete set of information (the "tags") to describe it so others can find and make use of it.

[Go to Tagging Tool →](#)

Create a Learning Set

A learning set is an ordered sequence of resources bound together by a common purpose. It is suitable for lessons or activities that need multiple supporting resources.

[Go to Learning Set Builder →](#)

Create a Learning List

A learning list is a structured heirarchy of learning sets. It is suitable for a larger series of lessons, a curriculum, or anything in between. If you have need to express both sequence and scope, a learning list is the way to go.

[Go to Learning List Builder →](#)

Creating a Learning Set

When beginning to create a learning set, your first screen is where you will add basic information. After you've entered the information select Create!

- Title
- Description
- Learning Set Organization (optional)

Create a new Learning Set

Use this tool to group resources into a hierarchy, much like a set of files and folders on a computer. To get started, enter a name and description below. In the next step, you'll upload an image.

Please enter a title and description that help other users get a good idea of what your Learning Set is for.

Title

Description

Create learning set on behalf of an organization (optional):

Create!

Creating a Learning Set

The next step of building your learning set will be to;

- Add a Rich Description
- IOER Access Restrictions
- Select correct Usage Rights
- Add your Learning Set image

Once these steps are complete you will select Save or Save and Add Resources.

Set Information

Approximate timeframe to complete

Create learning set on behalf of an organization (optional):
No organization

IOER Access Restrictions
Anyone can access, including students

Usage Rights
The [Creative Commons](#) license you select here will apply to and allow each resource you add will maintain its own license. Click on a license information.

Set Learning Standards

Standards that apply to the entire set can be added here. For resource-specific standards, please add them on the "Add Resources" tab.

[Add Learning Standards...](#)

This set doesn't have any standards aligned to it.

Custom Learning Set Image

Upload an image that represents your learning set. (Image will be resized to 400x300 pixels)

Adding Resources

To add resources to your Learning Set, you will select the **Add Resources** tab. You will;

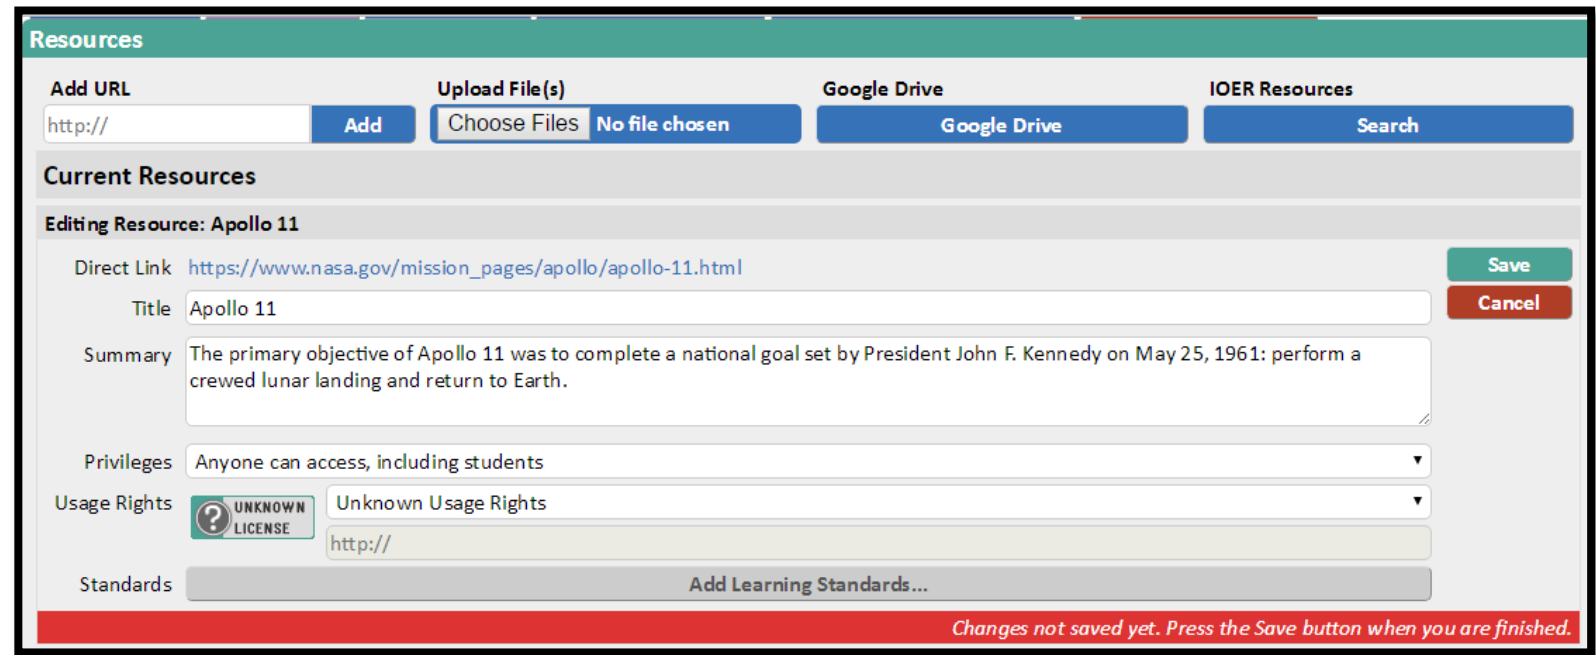

1. Choose a Webpage URL, File Upload, Google Drive Upload or search for existing resources in IOER
2. Enter in a brief summary of the resource
3. Access rights for the resource
4. Usage Rights
5. Add Learning Standards
6. Save Resource

You can upload multiple types of documents to your learning set. Such as:

- PDFs
- Word Documents
- Excel Documents
- Power Points
- Webpages

The screenshot shows the top navigation bar of the 'IOER Learning Set Builder'. The 'Add Resources' tab is highlighted with an orange box. Other tabs include 'Add Information', 'Preview this Set', 'View Learning Set Tags', 'Publish Learning Set Resources', and 'Delete this Learning Set'. Below the tabs, there are four main sections: 'Add URL' with a text input field containing 'http://', an 'Add' button, and a 'Choose Files' button; 'Upload File(s)' with a 'No file chosen' status; 'Google Drive' with a 'Google Drive' button; and 'IOER Resources' with a 'Search' button.

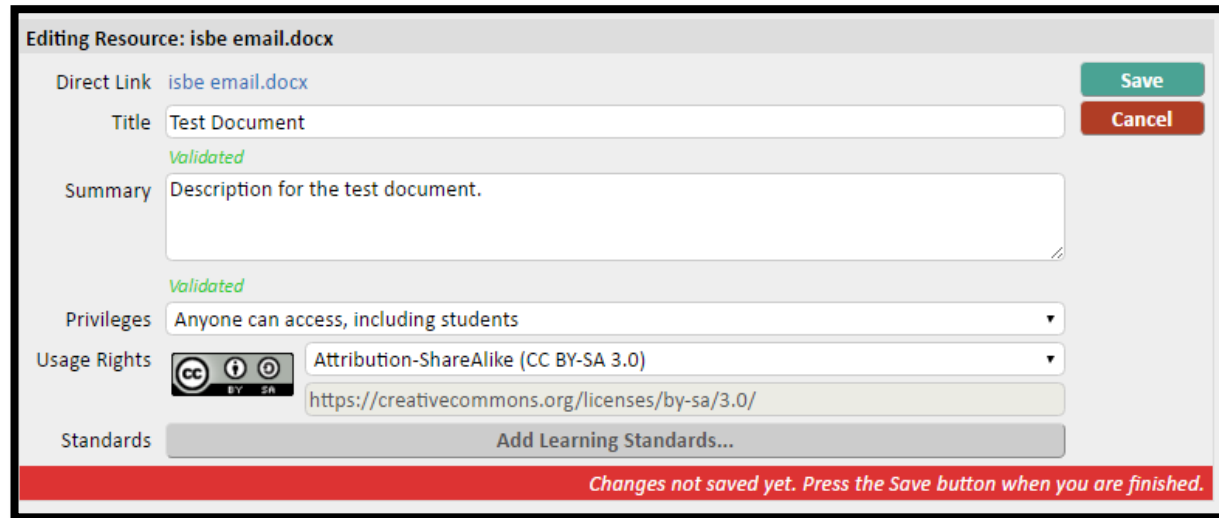

The screenshot shows the 'Resources' section of the interface. It includes the same navigation tabs and buttons as the previous screenshot. Below these, there is a section titled 'Current Resources' and a sub-section 'Editing Resource: Apollo 11'. The form for editing the resource includes fields for 'Direct Link' (with a URL), 'Title' (with 'Apollo 11'), 'Summary' (with a text area containing a description of the Apollo 11 mission), 'Privileges' (with a dropdown menu set to 'Anyone can access, including students'), 'Usage Rights' (with a dropdown menu set to 'Unknown Usage Rights' and a 'UNKNOWN LICENSE' icon), and 'Standards' (with a text input field containing 'http://'). There are 'Save' and 'Cancel' buttons on the right side of the form. A red banner at the bottom of the form states: 'Changes not saved yet. Press the Save button when you are finished.'

Aligning Resources to Standards

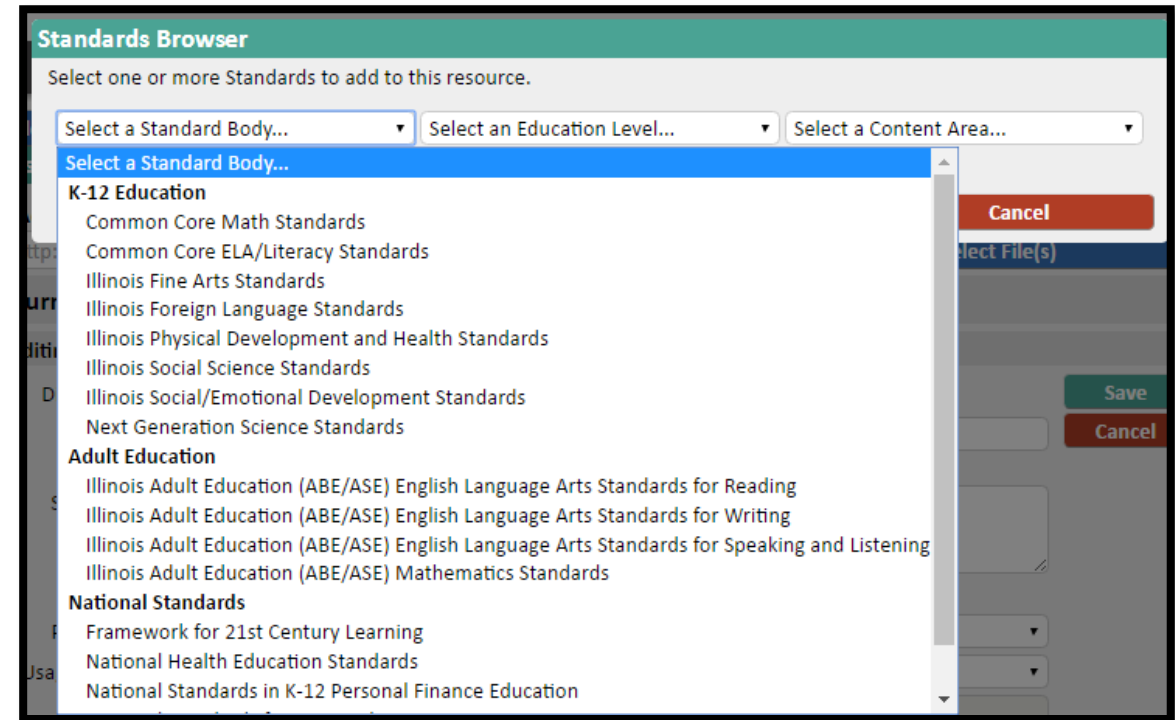

After adding all of your resource details to your uploaded resource, you can align the resource to standards. You will;

1. Select Add Learning Standards..

The screenshot shows the 'Editing Resource' interface for a file named 'isbe_email.docx'. It includes fields for 'Direct Link', 'Title' (Test Document), 'Summary' (Description for the test document.), 'Privileges' (Anyone can access, including students), and 'Usage Rights' (Attribution-ShareAlike (CC BY-SA 3.0)). A 'Standards' section at the bottom has an 'Add Learning Standards...' button. A red banner at the bottom states: 'Changes not saved yet. Press the Save button when you are finished.'

2. From the drop down choose the standards you want to align the resource to

The screenshot shows the 'Standards Browser' dialog with the instruction 'Select one or more Standards to add to this resource.' It features three dropdown menus: 'Select a Standard Body...', 'Select an Education Level...', and 'Select a Content Area...'. The 'Select a Standard Body...' dropdown is open, showing a list of standards categorized under 'K-12 Education', 'Adult Education', and 'National Standards'. The 'K-12 Education' list includes Common Core Math Standards, Common Core ELA/Literacy Standards, Illinois Fine Arts Standards, Illinois Foreign Language Standards, Illinois Physical Development and Health Standards, Illinois Social Science Standards, Illinois Social/Emotional Development Standards, and Next Generation Science Standards. The 'Adult Education' list includes Illinois Adult Education (ABE/ASE) English Language Arts Standards for Reading, Writing, Speaking and Listening, and Mathematics Standards. The 'National Standards' list includes Framework for 21st Century Learning, National Health Education Standards, and National Standards in K-12 Personal Finance Education. 'Cancel' and 'Save' buttons are visible on the right.

Aligning Resources to Standards

3. After selecting all of the standards you want to align the resource to you can choose if the standard is Major, Supporting, or Additional alignment.

Once you are ready to save your aligned standards you will click on Add Selected Standards.

The screenshot shows the 'Standards Browser' interface. At the top, there are three dropdown menus: 'Common Core Math Standards', '1st Grade', and 'Geometry'. Below these, a section titled 'Reason with shapes and their attributes.' is displayed, with a note 'Applies to Grade(s): 1'. This section contains three standards, each with a checkbox and a description:

- ☐ **1.G.A.1**
Distinguish between defining attributes (e.g., triangles are closed and three-sided) versus non-defining attributes (e.g., color, orientation, overall size); build and draw shapes to possess defining attributes.
Applies to Grade(s): 1
- ☐ **1.G.A.2**
Compose two-dimensional shapes (rectangles, squares, trapezoids, triangles, half-circles, and quarter-circles) or three-dimensional shapes (cubes, right rectangular prisms, right circular cones, and right circular cylinders) to create a composite shape, and compose new shapes from the composite shape.
Applies to Grade(s): 1
- ☒ **1.G.A.3**
Partition circles and rectangles into two and four equal shares, describe the shares using the words halves, fourths, and quarters, and use the phrases half of, fourth of, and quarter of. Describe the whole as two of, or four of the shares. Understand for these examples that decomposing into more equal shares creates smaller shares.
Applies to Grade(s): 1

On the right side of the interface, there are three alignment panels, each with a red 'X' icon in the top right corner:

- Panel 1: 'Resource aligns to th' dropdown, 'Major alignment' dropdown, '1.NBT.A.1', 'Grades 1'.
- Panel 2: 'Resource aligns to th' dropdown, 'Major alignment' dropdown, '1.NBT.C.4', 'Grades 1'.
- Panel 3: 'Resource aligns to th' dropdown, 'Supporting alignment' dropdown, '1.G.A.3', 'Grades 1'.

At the bottom of the interface, there are two buttons: 'Add Selected Standards' (blue) and 'Cancel' (red).

Preview Learning Set

After adding your resources to your learning set you can Preview the set so you can see how it will look once it is published.

To preview your set select Preview this Set tab at the top of the builder.

Publishing Your Learning Set

After adding all of your resources, aligned them to standards, and previewed your learning set, you are ready to publish your Learning Set!

To publish your Learning Set you will select the Publish Learning Set tab at the top of the screen.

Publishing Your Learning Set

After selecting the Publish this Learning Set tab you will be directed to the IOER Tagging Tool. Here you will add Keywords and any other appropriate tags for your Learning Set. Such as;

- Education Levels
- Resource & Media Type
- End Users
- Educational Use
- And more!

From the tagger you will also be able add your Learning Set to any libraries that you are a member of.

The screenshot displays the IOER Resource Tagger interface, which is used for publishing learning sets. The interface is divided into two main sections: 'The Resource' and 'Basic Information'.

The Resource

First, enter a URL or provide a file:

Tag a URL | Upload a File | Google Drive

Enter the URL to the Resource: Validated

Please ensure that the URL you're tagging:

- Goes directly to the resource
- Is publicly available
- If the resource requires registration, please mention this in the description and select the appropriate Access Rights in the form below.

Basic Information

Next, tell us a few things about the resource:

Title (Required) Validated

Description (Required) Please enter at least 1 more characters.

Keywords (Required)
